## Fuel hose - suction-/presshose - NBR / CR - 19 x 31mm (Per meter)

<https://www.nexaparts.com/fuel-hose-suction-presshose-nbr-cr-19-x-31mm-per-meter>

### Specificaties

|                       |                                                     |
|-----------------------|-----------------------------------------------------|
| Productnummer         | 33384                                               |
| EAN                   | 9504764827640                                       |
| Merk                  | NexaParts                                           |
| Categorie             | Rubber Hoses                                        |
| Materiaal             | NBR / CR                                            |
| Kleur                 | Zwart                                               |
| Style                 | Binnendiameter ø19 x 31mm (Per meter)               |
| model                 | Olie- en benzineslang                               |
| Diepte/lengte         | 100.00                                              |
| Breedte               | 100.00                                              |
| Hoogte                | 100.00                                              |
| Outer diameter        | 31 mm                                               |
| Inner diameter        | 19 mm                                               |
| Length                | 1m                                                  |
| Inner diameter        | 19                                                  |
| Outer Diameter        | 31mm                                                |
| applicable for        | Olie, Benzine, Diesel                               |
| Barst pressure        | 64 bar                                              |
| Color                 | Zwart                                               |
| Color 2               | Geel                                                |
| Dimensions            | Per Meter                                           |
| Electrical Conduction | R<10?                                               |
| Inner surface         | NBR                                                 |
| Insert                | Sterke synthetische textiel inlagen, stalen spiraal |
| Material              | NBR / CR                                            |
| Model                 | Olie- en benzineslang                               |
| Outer surface         | NBR                                                 |
| Temperatur range      | -40°C/ +70°C                                        |
| Wall Thickness        | 6 mm                                                |
| Work pressure         | 16 bar                                              |

**Pluspunten**

- + Also usable for E10
- + EN 12115:2011, En 1761, TRbf 131/2
- + Weather and aging resistant
