## Flanged Bushing TEF - MET®/P TFB/P 11060- (110x115x60)

<https://www.nexaparts.com/flanged-bushing-tef-metp-tfbp-11060-110x115x60>

### Specificaties

|                  |                                                                              |
|------------------|------------------------------------------------------------------------------|
| Productnummer    | TFB_P.11060                                                                  |
| Merk             | GLT                                                                          |
| Categorie        | Sliding Bearings                                                             |
| afmeting         | Inner diameter: 110   Outer diameter: 115   Length: 60   Flancediameter: 130 |
| Materiaal        | Staal / PTFE                                                                 |
| Kleur            | Grijs                                                                        |
| Style            | 110x115x60                                                                   |
| model            | Cilinderbus met flens                                                        |
| Diepte/lengte    | 6.00                                                                         |
| Breedte          | 11.50                                                                        |
| Hoogte           | 11.50                                                                        |
| Color            | Grijs                                                                        |
| Dimensions       | Inner diameter: 110   Outer diameter: 115   Length: 60   Flancediameter: 130 |
| Dynamic load     | <140 N/mm2                                                                   |
| Friction value   | 0,02 tot 0,2 $\mu$                                                           |
| Material         | Staal / PTFE                                                                 |
| Model            | Cilinderbus met flens                                                        |
| Rotation speed   | 2 (5 m/s wanneer oliegesmeerd) m/s                                           |
| Static Load      | 250 N/mm2                                                                    |
| Temperatur range | -195 tot +280                                                                |
| Inner diameter   | 110 mm                                                                       |
| Outer diameter   | 115 mm                                                                       |
| Length           | 60 mm                                                                        |
| Flange Diameter  | 130 mm                                                                       |

### Pluspunten

- + Applicable in lubricated application
- + DIN 1494 / ISO 3547
- + Dry slide bearing
- + Leadfree
