## Flanged Bushing TEF - MET®/P TFB/P 9040- (90x95x40)

<https://www.nexaparts.com/flanged-bushing-tef-metp-tfbp-9040-90x95x40>

### Specificaties

|                  |                                                                            |
|------------------|----------------------------------------------------------------------------|
| Productnummer    | TFB_P.9040                                                                 |
| Merk             | GLT                                                                        |
| Categorie        | Sliding Bearings                                                           |
| afmeting         | Inner diameter: 90   Outer diameter: 95   Length: 40   Flangediameter: 110 |
| Materiaal        | Staal / PTFE                                                               |
| Kleur            | Grijs                                                                      |
| Style            | 90x95x40                                                                   |
| model            | Cilinderbus met flens                                                      |
| Diepte/lengte    | 4.00                                                                       |
| Breedte          | 9.50                                                                       |
| Hoogte           | 9.50                                                                       |
| Color            | Grijs                                                                      |
| Dimensions       | Inner diameter: 90   Outer diameter: 95   Length: 40   Flangediameter: 110 |
| Dynamic load     | <140 N/mm <sup>2</sup>                                                     |
| Friction value   | 0,02 tot 0,2 $\mu$                                                         |
| Material         | Staal / PTFE                                                               |
| Model            | Cilinderbus met flens                                                      |
| Rotation speed   | 2 (5 m/s wanneer oliegesmeerd) m/s                                         |
| Static Load      | 250 N/mm <sup>2</sup>                                                      |
| Temperatur range | -195 tot +280                                                              |
| Inner diameter   | 90 mm                                                                      |
| Outer diameter   | 95 mm                                                                      |
| Length           | 40 mm                                                                      |
| Flange Diameter  | 110 mm                                                                     |

### Pluspunten

- + Applicable in lubricated application
- + DIN 1494 / ISO 3547
- + Dry slide bearing
- + Leadfree
