| Hoogte              | 3.60                                                          |
| Gewicht             | 12.80 Kg                                                      |
| Inner diameter      | 28 mm                                                         |
| Length              | 20m                                                           |
| Outer diameter      | 36 mm                                                         |
| Inner diameter      | 28                                                            |
| Max length          | 20m                                                           |
| Outer Diameter      | 36mm                                                          |
| applicable for      | Koelsysteem, verwarmingsstelsel                               |
| Barst pressure      | 15 bar                                                        |
| Color               | Zwart                                                         |
| Color 2             | Zwart                                                         |
| Dimensions          | Volle rol 20m                                                 |
| Inner surface       | EPDM, zwart, glad                                             |
| Insert              | Sterke synthetische textiel inlagen, stalen spiraal           |
| Material            | EPDM                                                          |
| Minimum bend radius | 55 mm                                                         |
| Model               | Waterslang / Radiatorslang                                    |
| Outer surface       | Grieks profiel, EPDM, zwart, warmte- en verouderingsbestendig |

### **Specificaties**

Temperatuur range -40°C / +120°C

Wall Thickness 4 mm

### **Pluspunten**

- + Aging resistant
- + Little bending radius
- + Relatively high bursting power
