## High Pressure Steam Hose and ISO - ø25mm - (cutting length per meter)

<https://www.nexaparts.com/high-pressure-steam-hose-and-iso-25mm-cutting-length-per-meter>

### Specificaties

|                  |                                                                    |
|------------------|--------------------------------------------------------------------|
| Productnummer    | 2885                                                               |
| EAN              | 9501774426467                                                      |
| Merk             | Steam EN ISO OHM                                                   |
| Categorie        | Rubber Hoses                                                       |
| afmeting         | 1 meter                                                            |
| Materiaal        | CIIR EPDM                                                          |
| Kleur            | Zwart                                                              |
| Style            | Binnendiameter ø2 - (per meter)                                    |
| model            | Stoomslang                                                         |
| Diepte/lengte    | 100.00                                                             |
| Breedte          | 2.50                                                               |
| Hoogte           | 2.50                                                               |
| Gewicht          | 1.02 Kg                                                            |
| Inner diameter   | 25mm mm                                                            |
| Length           | 1m                                                                 |
| Outer diameter   | 40 mm                                                              |
| Inner diameter   | 25                                                                 |
| Outer Diameter   | 40mm                                                               |
| applicable for   | Water, Gier, Tankwagen                                             |
| Barst pressure   | 180 bar                                                            |
| Color            | Zwart                                                              |
| Color 2          | Zwart                                                              |
| Dimensions       | Per Meter                                                          |
| Inner surface    | Zwart, glad, geleidend CIIR (chlorobutyl), geëxtrudeert            |
| Insert           | Staalinlagen                                                       |
| Material         | CIIR EPDM                                                          |
| Model            | Stoomslang                                                         |
| Outer surface    | Zwart, EPDM, doekafdruk, geleidend, weer- en verouderingsbestendig |
| Temperatur range | -40°C / +210°C (Kortstondig +232°C)                                |
| Wall Thickness   | 7,5 mm                                                             |

**Pluspunten**

- + EN DIN Norm
- + Extreme high bursting power
- + Flexible
- + High Electrical resistance
- + High Work pressure
